

ZAHID RISKY RABBANI

Mechanical Engineering Graduate

Yogyakarta, Indonesia | zahidriskyabbani@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Mechanical Engineering graduate from Universitas Gadjah Mada with a strong interest in renewable energy, mechanical design and manufacturing, and maintenance engineering. Gained hands-on experience through engineering research, an industrial internship, engineering competitions, organizational involvement, and community service projects. Demonstrated strong analytical thinking, problem-solving, teamwork, and communication skills while working on technical projects and collaborating with multidisciplinary teams. Passionate about applying engineering knowledge to improve system performance, operational reliability, and sustainable industrial development.

EDUCATION

Universitas Gadjah Mada — B.Eng. in Mechanical Engineering Yogyakarta, Indonesia GPA: 3.90 / 4.00	2022 – 2026
SMAN 2 Sumatera Barat — Science Program Solok, Indonesia	2019 – 2022

INDUSTRIAL EXPERIENCE

Mechanical Engineering Intern <i>PT PGAS Solution, Sidoarjo, Indonesia</i>	Jun 2026 – Present
- Assisted in the inspection and preventive maintenance of gas distribution facilities, including Metering Regulating Stations (MR/S), to ensure safe and reliable operation. - Supported preventive and corrective maintenance activities on gas pipeline systems and supporting equipment. - Identified external corrosion caused by condensation on pipeline components and documented maintenance findings. - Prepared maintenance documentation and inspection reports to support daily maintenance activities.	

RESEARCH & TECHNICAL EXPERIENCE

Operations & Maintenance Staff — Pyrolysis-Reforming Hydrogen Production Research <i>Faculty Research Project with Universitas Gadjah Mada & Pertamina</i>	Jun 2026 – Present
- Support a research project on continuous pyrolysis-reforming of plastic waste for hydrogen production. - Conduct over 50 experimental runs, analyzed process data, and evaluate the effects of operating conditions on hydrogen production performance. - Perform maintenance and troubleshooting on laboratory experimental equipment to ensure operational reliability.	
Operator & Maintenance Staff — Humic Acid Derivative Research <i>Faculty Research Project ("Primestep"), Universitas Gadjah Mada</i>	Jul 2026 – Present
Operate and maintain laboratory equipment, conduct experiments, analyze research data, and contribute to equipment development for humic acid derivative research.	
Mechanic, Technology Development Division – Propulsion System <i>Gamaforce (UAV Research Team), Universitas Gadjah Mada</i>	2023 – 2024
- Conducted research and development of UAV propulsion systems for the Indonesian Flying Robot Contest (KRTI). - Designed, manufactured, and tested a UAV propulsion system that contributed to winning 1st Place in the Technology Development category of the Indonesian Flying Robot Contest (KRTI).	

TEACHING & ASSISTANTSHIP EXPERIENCE

Teaching Assistant — Technical Drawing & Programming Logic <i>Department of Mechanical and Industrial Engineering, Universitas Gadjah Mada</i>	2024
Assisted lecturers in delivering course material and supporting students in Technical Drawing and Programming Logic courses.	
Laboratory Assistant — Mechanical Vibration Practicum	2025

- Guided students through laboratory experiments and provided technical instruction and direction during practicum sessions.

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Sub-Unit Student Coordinator — Community Service Program

2025

Community Service Unit, Banguntapan, Bantul, Yogyakarta

- Led a team of 7 students in planning and executing a 50-day community service program, managing project coordination, logistics, proposal development, and community relations.
- Implemented community development projects, including renewable energy education, village infrastructure improvements, and community empowerment initiatives in collaboration with local stakeholders.

Event Committee Member

Jan 2024 – Jun 2024

Mechanical Design Competition IX (MEDCOM IX)

- Planned event design and rundown, determined the venue, and ensured the event ran smoothly and in an orderly manner.

Secretariat Staff

Aug 2023 – Dec 2023

64th Anniversary Seminar, Department of Mechanical Engineering, UGM

- Drafted event proposals, prepared permit and equipment-borrowing letters, and compiled official meeting minutes.

Media Division Member

2022 – 2023

Mechanical Engineering Computers Club (MECC), Universitas Gadjah Mada

- Studied software commonly used in mechanical engineering and organized software training sessions for members.
- Produced instructional videos on engineering software, published on YouTube.

Head of Facilities and Infrastructure Division

2017 – 2019

Mosque Youth Organization, SMAN 2 Sumatera Barat

- Maintained mosque facilities and ensured all equipment remained in proper working condition.
- Performed upkeep and repairs on damaged infrastructure and equipment.

SKILLS

Technical: Mechanical Design, Maintenance Engineering, Manufacturing Processes, Renewable Energy Systems, Experimental Research

Software: Autodesk Inventor, AutoCAD, Ansys, Microsoft Excel, Microsoft Word, Origin

Professional: Problem Solving, Analytical Thinking, Teamwork & Collaboration, Communication, Leadership, Project Coordination, Time Management, Adaptability, Critical Thinking, Attention to Detail

HONORS & AWARDS

- 1st Place, Indonesian Flying Robot Contest (KRTI) – Technology Development Category (2024)
- 1st Place, National Physics Science Olympiad – District Level (2018)
- 2nd Place, National Physics Science Olympiad – District Level (2017)
